

DPC BIOSCIENCES CORPORATION

(DPC)

QUARTERLY MANAGEMENT DISCUSSION AND ANALYSIS

For the quarter ended February 28, 2006

The following discussion and analysis of DPC Biosciences Corporation's ("DPC" or the "Company") financial condition and results of operation should be read in conjunction with the unaudited financial statements and accompanying notes. The financial statements have been prepared in accordance with Canadian Generally Accepted Accounting Principles ("GAAP") and represent results for the quarters ended February 28, 2006 and February 28, 2005.

Forward-looking Statements

This quarterly management discussion and analysis contains certain forward-looking statements with respect to the Company. These forward-looking statements, by their nature, involve risks and uncertainties that could cause actual results to differ materially from those contemplated. Management considers the assumptions on which these forward-looking statements are based to be reasonable, but cautions the reader that these assumptions regarding future events, many of which are beyond our control, may ultimately prove to be incorrect.

DESCRIPTION OF BUSINESS

DPC and its former wholly-owned subsidiary, DPC Biosciences Inc., previously operated in the biotechnology industry doing research and development of diagnostic tools for neuroscience-related diseases. Activities were suspended in June 2001 with the closure of the laboratory in Ste-Foy, Québec. In October 2001, the subsidiary's principal asset was sold and both the parent and the subsidiary became inactive. On December 20, 2005, the Company sold all of its shares in DPC Biosciences Inc. for total cash consideration of \$10 payable on that date. The sale resulted in a gain of \$322,690 based on the elimination of the subsidiary's working capital deficit.

As of the date hereof, DPC maintains an office in Vancouver, British Columbia, with minimal overhead costs and is undergoing a process aimed at reactivating its business within the interactive gaming sector. Such reactivation is predicated on the receipt of both regulatory approval and shareholder approval. Additional information concerning the proposed reactivation is set out in DPC's Press Release dated April 5, 2006 and having its shares resume trading on the TSX-Venture Exchange.

RESULTS OF OPERATIONS

As of the date hereof, the Company remains inactive and is generating no revenue.

For the quarter ended February 28, 2006, the Company reports net income of \$270,317 as a result of the gain recognized on the sale of the subsidiary. DPC's assets at quarter end were \$421,408 and its liabilities were \$13,104 leaving shareholders' equity of \$408,304. The \$322,690 gain on the sale of the subsidiary was partially offset by aggregate office costs and legal, accounting, consultancy and regulatory fees of \$52,373.

LIQUIDITY

On January 12, 2006, the Company completed the first round of a non-brokered private placement in the amount of \$150,000 at \$0.05 per share by issuing a total of 3,000,000 common shares of the Company.

On February 28, 2006, the Company completed the second round of the non-brokered private placement in the amount of \$300,000 at \$0.05 per share by issuing a total of 6,000,000 common shares of the Company. The effective date for such transaction was January 30, 2006

As at February 28, 2006, and as a result of the proceeds of the private placements, the Company had available cash of \$418,891. Such funds are available to enable the Company to complete its proposed reactivation process and to perform necessary due diligence regarding investment opportunities.

CAPITAL RESOURCES

The Company is currently seeking to reactivate its operations. Additional financing is required in order to fulfill the Company's business plan that is the basis for the reactivation. Management remains hopeful that if and when the proposed reactivation plan is approved by shareholders and regulatory bodies, financing will be available on acceptable terms to enable the Company to carry on its intended interactive gaming activities.

SUBSEQUENT EVENTS

On April 5, 2006 the Company announced that it had entered into a Letter of Intent providing for DPC to acquire certain assets which are presently being utilized to derive revenues from activities that are peripheral to online gaming. The Company also announced its intention to close an equity private placement of up to \$4,400,000 and to undergo a name change to iGaming Corporation. The above-mentioned Letter of Intent related to the asset acquisition was entered into as of April 5, 2006 with Global Marketing Focus Inc., a privately held British Columbia company. The completion of the acquisition, the private placement and the name change are all expected to be completed contemporaneously upon receipt of both regulatory approval and shareholder approval, as applicable, which will therefore provide for the reactivation of the Company and the resumption of its common shares being listed on the TSX-Venture Exchange.

RISKS

There is no assurance that the Company will receive the necessary approvals to allow for the reactivation of operations. Furthermore, if the approvals are received, there is no assurance that management will succeed in raising the funds required to implement the business plan.

OTHER INFORMATION

SUMMARY OF SECURITIES ISSUED IN THE QUARTER ENDED FEBRUARY 28, 2006

Date Issued	Type of Security	Type of Issue	Number	Price	Total Proceeds
