

## **DPC BIOSCIENCES CORPORATION CONTINUES WITH CHANGE OF BUSINESS/REACTIVATION APPLICATION**

TORONTO, CANADA, Friday, May 5, 2006– (TSX Venture Exchange: DPC.H)

Christopher S. Kape, Chief Executive Officer of DPC Biosciences Corporation (“DPC”) is pleased to announce that DPC is continuing with its application for regulatory approval of its proposed Change of Business (which involves the confirmation of its asset purchase agreement concerning certain assets which are presently being utilized to derive revenues from online gaming related industries, a contemporaneous name change and an equity private placement of up to \$4.4 million).

Approval of the Change of Business is proposed to involve a contemporaneous reactivation of DPC such that its common shares recommence trading on the TSX Venture Exchange. DPC’s 29,006,533 common shares are presently listed on NEX but are presently subject to a trading halt as a result of its Change of Business application.

“Management is excited at the prospects that the Change of Business will return shareholder value to the company,” stated Mr. Kape.

DPC continues to move forward by providing the Exchange with the required documentation and expects to hold a Special Annual and General Meeting in late June or early July whereat it will be seeking shareholder approval of the above-mentioned Change of Business and the corresponding Reactivation.

The TSX Venture Exchange has in no way passed upon the merits of the proposed transactions described herein and has neither approved nor disapproved the contents of this press release.
